

**It's time for students
to have their say...**

Dear Colleague,

As you are aware we're committed to continually improving our service and it is with this in mind that we are reaching out to you to help get your students involved in improving all aspects of student finance.

The Student Finance Lab is our online community where we invite students to become members and take part in discussions and surveys about student finance. The more members we have the better feedback we will receive allowing us to make any necessary and relevant improvements, and share with you any issues students might be experiencing.

It would be great if you could encourage your students to join the Student Finance Lab. We've made it easy for you to share the link by creating posts for your Twitter and Facebook pages. If you could also post a link on your website it would be much appreciated.
